

Sounds of Sheffield: Synth Pop and Beyond

This is Isaac's launch night into his career...

Enjoy a quiz night and three course meal celebrating the best of Sheffield music and food.

A party person with a passion for food and music – especially 80s synth pop and Sheffield's electronic music scene – Isaac White is a natural-born event planner. Nineteen year old Isaac graduated from Talbot School and now studies catering at Sheaf College.

Living with Duchenne muscular dystrophy, Isaac advised Blend Kitchen on the design of their wheelchair-accessible catering kitchen, and has been involved with the restaurant ever since, starting with food preparation and cooking and more recently extending into food reviewing and menu and event planning.

Says Isaac: 'Party planning is what I was born to do. Enjoy!'
